

## WEDO BOTS

### Primary

Technological advancement requires keeping pace with this fast changing world. The renowned Robo Tech Institute is collaborating with DPS facilities to provide the most valuable opportunity to the undiscovered genius. Their focus on STEM (Science, Technology Engineering & Math) will develop fun techniques for latest technological applications and help shift the focus from screen dependence and gadget addiction to empower the mind and inculcate creative confidence!

Students can now learn to build and programme robots using LEGO Education's award-winning WEDO Robotics and Programming Software under expert teacher guidance.

Attain technological wizardry and churn your gears of innovation!
