

Sketching and Painting

Secondary

This exciting programme has been designed to help students learn the basics of sketching and painting. Sketching is emphasized as a valuable means of developing concentration and mental imaging of a situation whereas painting will be taught through colour mixing techniques, colour values, and painting application methods. So if you are interested in enabling your child to develop his or her own style and to unleash the creativity that is hidden within, register before seats run out and learn true art with Ms Shiza Siddiqui.
