Summer Vacation Homework

Dear children,

One more wonderful year has passed and yet another summer break is upon us. It is now time to unwind, relax and have fun. However, you know that learning happens all the time, in all the seasons. Your teachers have designed many creative and nifty assignments for you to do over the long summer break. This will enable you to make your holidays constructive and also lead you to realise your untapped potential. These assignments are made in such a way that not only will you learn amazing new things, but you will also become an active and confident thinker. Your curiosity will be piqued and you are guaranteed to have an enjoyable experience while you are at it.

So relax, enjoy, stay hydrated and get those thinking caps on. Come back refreshed and ready to take on another amazing year ahead.

Regards

Mahvash Roshani
