

STEAM

Secondary

Creativity, adaptability, critical reasoning, and collaboration are highly valued skills and when it comes to fostering those skills in the classroom, integrated study is an extremely effective approach adapted by Dawood Public School to help students develop multifaceted expertise and grasp the important role that interrelationships can play in the real world.

An exciting preliminary course has been designed to allow students develop awareness through our highly equipped STEAM Lab about what the world of Engineering has in itself to offer in the future. This 6 week course allows students to get acquaintance with different integrated approaches of Pre-Engineering offered by the top-notch universities.
