**Primary Section**  
**Class I Promoted to Class II (2019-20)**

Dear Children,

The blissful summer vacation is here. It's time to reinforce the importance of a routine; learning responsibility and building on skills learned during the academic year. Strike a balance between work and play and grow in the process. During these tranquil/relaxing times to keep you entertained and productive we have designed interesting and innovative summer homework. With the aim to create a bond between you and the older generation our homework involves family participation that will help you appreciate the blessed family time and realize the amazing progress man has made over the years.

Relax, enjoy, have loads of fun and come back refreshed.

## **Gardening Project**

Get started on planting for the season, by using an egg carton/egg shells/used paper cups to sow seeds, these are common household products and are biodegradable.

To begin, take an empty egg carton/egg shell/used paper cups. Using plastic wrap, cover the top part of the container. The plastic wrap is helpful in maintaining the warmth and moisture of the seeds and seedlings.

Be sure to poke holes in the bottom. The holes will allow excess water to escape, thus protecting the seeds and seedlings from over-watering.

**Your task:** is to plant only fruit seeds such as lime, lemon, chikoo, custard apple, papaya whatever is available in the season. Bring the sprouted plant to school after the vacation.
